Creative Technologist with expertise in visual storytelling and web applications. Proven skills in UI/UX design, fostering collaboration between technical and creative teams to drive impactful digital solutions.

PROJECTS

CoreKnot — Productivity & Ops [Github Repo](#)

React, Clerk, Product Systems

Built an ops dashboard for tasks, attendance, inbox, and team context.

Designed workspace modules and flows for real studio workflows.

Shipped a productivity product tying business info to user actions.

ERP System for EKORS [Github Repo](#)

Next.js, Node.js, Express, MongoDB, JWT

Architected a full-stack system with Role-Based Access Control (RBAC) for tiered user permissions (User/Admin/Super-Admin).

Engineered secure Token-Based Authentication and modular schemas for automated quotation and ticket tracking.

Built dynamic management interfaces for real-time CRUD operations on client and inventory data.

The Shakti Collective Website [Github Repo](#)

Next.js, Tailwind CSS, Framer Motion

Built a modern, visually-driven web application utilizing Next.js for server-side rendering and performance.

Deployed high-bitrate video backgrounds and interactive UI components to bridge cinematic art with web technology.

Utilized Tailwind CSS for a mobile-first, utility-driven design architecture.

TECHNICAL SKILLS

Programming & Web: Node.js, Express, MongoDB, React, Next.js, Tailwind CSS, JavaScript (ES6), HTML5/CSS3.

Technical Suite: Microsoft Clarity, Vercel, Render, Git, Multi Agentic Workflows, Google SEO and AEO Optimization, Figma (UI/UX Design).

Specialized Tech: Google Cloud Infrastructure, Internet of Things (IoT), Token-Based Authentication, RESTful APIs.

EXPERIENCE

Creative Technologist The Shakti Collective

Mar 2025 – Present

Building academy + artist platform, courses, and brand systems.

Shipping Next.js experiences for cultural storytelling ops.

Project Intern

EKORS

March 2025 – July 2025

Assisted in development of internal tools and projects.

Supported achieving key milestones in project delivery.

Intern

Fruture Studio

June 2022 – August 2022

Crafted Discord server infrastructure for a Web3 startup.

Managed technical assets for corporate social media accounts.

CERTIFICATIONS

Google Cloud Computing Foundations

Google

January 2026

Gained understanding of cloud infrastructure and deployment.

UI/UX Design Principles

Online Learning Platform

December 2025

Applied design thinking to create user-centered interfaces.

EDUCATION

BML Munjal University

Gurugram, Haryana

B.Tech in Computer Science, 2021 – 2025
